## 2020-21 EDUCATION PROGRAMS

### RHAPSODY IN BLACK

WRITTEN & PERFORMED  
BY LELAND GANTT

AVAILABLE  
VIRTUALLY  
THROUGH JUNE

The virtual version of *Rhapsody in Black*, an impactful one-man show about racism, the myriad inequities faced by Blacks in our society, and the challenges of straddling the color line is now available for streaming. Harrowing, incredible, often hilarious, and always authentic, *Rhapsody* is a stellar EDI (Equity, Diversity and Inclusion) consciousness-raising theater-piece. The work, which made its debut in 2015 and has toured steadily since then, is tailor-made to address the racial distress that is part of our history and at the forefront of current events.
